## Discovery Days in HEALTH SCIENCES NORTH

A Virtual Event

Wednesday, March 6, 2024

8:30 am – 12:30 pm Central Standard Time

Are YOU curious about careers in medicine and other sciences?

We invite grades 10 – 12 students from northern communities in Saskatchewan, Manitoba and Nunavut to join us online for this half day event. *Discovery Days in Health Sciences NORTH* offers a glimpse into the many career opportunities in medicine and health sciences.

Participants will hear a dynamic keynote lecture given by a leader in the health community, take part in an interactive workshop of choice from a catalogue of options and join in discussion with a panel of academics and professionals. There will also be an opportunity for 1:1 peer networking!

*"I wasn't completely sure what Discovery Day was before I attended, and I had a ton of fun! The workshop was great, but there was so much more to the program that was awesome! The virtual platform actually worked very well."*

To take part in Discovery Day or get more information, talk to your guidance counsellor or science teacher today!
